

TOWNSHIP OFFICIALS OF ILLINOIS RISK MANAGEMENT ASSOCIATION

RISK REMINDER

Park Inspections

Conducting park inspections is crucial for identifying and addressing potential hazards to ensure public safety. Focus on key areas to prevent accidents and create a safer environment for visitors.

- Electrical boxes/panels should not contain exposed wires and open fuses. Doors/covers should be locked.
- No sharp points or jagged edges on barriers, guardrails, benches, etc.
- Wood benches are not splintered or broken.
- Verify area is free of trash and debris and that trash dumpsters and receptacles are available for trash collection.
- Ensure proper signage is in place and verify that lighting (if applicable) is adequate and functioning.
- Buildings and restrooms have locks and not open 24 hours.
- Fix tripping hazards, holes, exposed tree roots, raised sidewalks.
- Trails and/or paths are clearly marked and free of hazards.
