# RISK REMINDER

## TAILGATE INSPECTIONS

The following are some safety tips to avoid injury or a claim when working with a tailgate:

- Ensure tailgate is closed and secured properly.
- No leaking of materials from the tailgate.
- Make sure to not overload the truck bed.
- When operating a tailgate make sure hands and fingers are clear from harm.
- Ensure safety chains are in good condition and secured.
- Inspect your dump bed and tailgate hinge pins regularly.
