Safety Belts Save Lives. ALWAYS BUCKLE UP!

Did you know...

- Chances are that someone you know will be involved in a vehicle crash this year.
- You are twice as likely to be severely injured or killed when unbuckled.
- You are four times more likely to be fatally injured when thrown from your vehicle and your seatbelt can keep you from being ejected.
- The majority of fatal crashes occur within a 25 mile radius of home.

It is an Illinois State Law to wear your safety belt. Buckle Up To Protect You and Your Township!
